☐ YES ☐ NO The property owner, primary contractor, civil or structural er	ngineer, or architect has certified to the
building department those portions of the project that are sei-	smic retrofitting components, as defined
by Revenue and Taxation Code section 74.5(b)(2).	
Section 74.5 of the Revenue and Taxation Code excludes from assessment that portion of an existing structure that consists of the construction and reconstruction of seismic components.	
In order to receive the exclusion, this claim form must be filed with the assessor prior to, or within 30 days of, completion of the project.	
All documents necessary to support the exclusion must be filed with the Assessor by the p	roperty owner not later than six months after
completion of the project.	
The property owner, primary contractor, civil or structural engineer, or architect shall certification	
of the project that are seismic retrofitting components, as defined by Revenue and Taxatic	
of the project, the building department shall report to the Assessor the costs of the portio components.	ons of the project that are seismic retrofitting
For purposes of section 74.5	
(1) "Seismic retrofitting components" means seismic retrofitting improvements and improve	ements utilizing earthquake hazard mitigation
technologies.  (2) "Seismic retrofitting improvements" means retrofitting or reconstruction of an existing building or structure, to abate falling hazards	
from structural or nonstructural components of any building or structure including, but not limited to, parapets, appendages, cornices,	
hanging objects, and building cladding that pose serious danger. "Seismic retrofitting	
strengthening or providing the means necessary to resist seismic force levels that wo	uld otherwise be experienced by an existing
building or structure during an earthquake, so as to significantly reduce hazards to life and	
safe ingress and egress of building occupants during and immediately after an earthque	
not include alterations, such as new plumbing, electrical, or other added finishing mater	
performed on an existing structure. "Seismic retrofitting" includes, but is not limited to, t 5 and 6 of the Uniform Code for Building Conservation of the International Conference	
(3) "Improvements utilizing earthquake hazard mitigation technologies" means improvement	
government as being hazardous to life in the event of an earthquake. These improver	ments shall involve strategies for earthquake
protection of structures. These improvements shall use technologies such as those ref	
101) of Title 24 of the California Building Code and similar seismic provisions in the Uni	form Building Code.
THIS EXCLUSION EXPIRES UPON CHANGE IN OWNERSHIP O	F THE PROPERTY.
CERTIFICATION	
I certify (or declare) under penalty of perjury under the laws of the State of California tha	
including any accompanying statements or documents, is true, correct and complete to the best of my knowledge and belief.
