EF-64-R10-0211-05000395-1 BOE-64 (P1) REV. 10 (02-11)

## CLAIM FOR SEISMIC SAFETY CONSTRUCTION **EXCLUSION FROM ASSESSMENT**

This claim must be filed with the Assessor prior to, or within 30 days of, completion of construction.

	DATE RECEIVED  APPROVED DENIED  REASON FOR DENIAL
L	
CLAIMANT'S NAME (PLEASE PRINT)  STREET ADDRESS (IF DIFFERENT THAN MAILING ADDRESS)  DATE (OR ANTICIPATED DATE) OF COMPLETION  DAYTIME TELEPHONE NUMBER  EMAIL ADDRESS	ASSESSOR'S PARCEL NUMBER  ZIP CODE
☐ YES ☐ NO  The property owner, primary contractor, civil or structural engine building department those portions of the project that are seisible by Revenue and Taxation Code section 74.5(b)(2).  Section 74.5 of the Revenue and Taxation Code excludes from assessment that portion of	mic retrofitting components, as defined

construction and reconstruction of seismic components.

In order to receive the exclusion, this claim form must be filed with the assessor prior to, or within 30 days of, completion of the project. All documents necessary to support the exclusion must be filed with the Assessor by the property owner not later than six months after completion of the project.

The property owner, primary contractor, civil or structural engineer, or architect shall certify to the building department those portions of the project that are seismic retrofitting components, as defined by Revenue and Taxation Code section 74.5(b)(2). Upon completion of the project, the building department shall report to the Assessor the costs of the portions of the project that are seismic retrofitting components.

For purposes of section 74.5

- (1) "Seismic retrofitting components" means seismic retrofitting improvements and improvements utilizing earthquake hazard mitigation technologies.
- (2) "Seismic retrofitting improvements" means retrofitting or reconstruction of an existing building or structure, to abate falling hazards from structural or nonstructural components of any building or structure including, but not limited to, parapets, appendages, cornices, hanging objects, and building cladding that pose serious danger. "Seismic retrofitting improvements" also means either structural strengthening or providing the means necessary to resist seismic force levels that would otherwise be experienced by an existing building or structure during an earthquake, so as to significantly reduce hazards to life and safety while also providing for the substantially safe ingress and egress of building occupants during and immediately after an earthquake. "Seismic retrofitting improvements" does not include alterations, such as new plumbing, electrical, or other added finishing materials, made in addition to seismic-related work performed on an existing structure. "Seismic retrofitting" includes, but is not limited to, those items referenced in Appendix Chapters 5 and 6 of the Uniform Code for Building Conservation of the International Conference of Building Officials.
- (3) "Improvements utilizing earthquake hazard mitigation technologies" means improvements to existing buildings identified by a local government as being hazardous to life in the event of an earthquake. These improvements shall involve strategies for earthquake protection of structures. These improvements shall use technologies such as those referenced in Part 2 (commencing with Section 101) of Title 24 of the California Building Code and similar seismic provisions in the Uniform Building Code.

THE EVOLUCION EVELOPES LIBON OUT NOT IN OWNERS HIS OF THE PROPERTY

THIS EXCLUSION EXPIRES UPON CHANGE IN OWNERSHIP OF THE PROPERTY.		
CERTIFICATION
