	ary contractor, civil or structural engineer, or architect has certified to the portions of the project that are seismic retrofitting components, as defined Code section 74.5(b)(2).
Section 74.5 of the Revenue and Taxation Code e construction and reconstruction of seismic compone	excludes from assessment that portion of an existing structure that consists of the ints.
	ist be filed with the assessor prior to, or within 30 days of, completion of the project. nust be filed with the Assessor by the property owner not later than six months after
of the project that are seismic retrofitting componen	uctural engineer, or architect shall certify to the building department those portions ats, as defined by Revenue and Taxation Code section 74.5(b)(2). Upon completion to the Assessor the costs of the portions of the project that are seismic retrofitting
For purposes of section 74.5(b):	
technologies. (2) "Seismic retrofitting improvements" means retrofrom structural or nonstructural components of cornices, hanging objects, and building cladding	or retrofitting improvements and improvements utilizing earthquake hazard mitigation of the construction of an existing building or structure, to abate falling hazards of any building or structure including, but not limited to, parapets, appendages, go that pose serious danger. "Seismic retrofitting improvements" also means either necessary to resist seismic force levels that would otherwise be experienced by an

- (2) "Seismic retrofitting improvements" means retrofitting or reconstruction of an existing building or structure, to abate falling hazards from structural or nonstructural components of any building or structure including, but not limited to, parapets, appendages, cornices, hanging objects, and building cladding that pose serious danger. "Seismic retrofitting improvements" also means either structural strengthening or providing the means necessary to resist seismic force levels that would otherwise be experienced by an existing building or structure during an earthquake, so as to significantly reduce hazards to life and safety while also providing for the substantially safe ingress and egress of building occupants during and immediately after an earthquake. "Seismic retrofitting improvements" does not include alterations, such as new plumbing, electrical, or other added finishing materials, made in addition to seismic-related work performed on an existing structure. "Seismic retrofitting" includes, but is not limited to, those items referenced in Appendix A of the International Existing Building Code of the International Code Council.
- (3) "Improvements utilizing earthquake hazard mitigation technologies" means improvements to existing buildings identified by a local government as being hazardous to life in the event of an earthquake. These improvements shall involve strategies for earthquake protection of structures. These improvements shall use technologies such as those referenced in Part 2 (commencing with Section 1.1.1) of Title 24 of the California Building Code and similar seismic provisions in the International Building Code.

THIS EXCLUSION EXPIRES UPON CHANGE IN OWNERSHIP OF THE PROPERTY.

THIS EXCESSION EXTINCES OF ON OUNTINGE IN OWNERONIII OF THE FIRST EXTI.		
CERTIFICATION
