BOE-64 (P1) REV. 11 (05-21)

CLAIM FOR SEISMIC SAFETY CONSTRUCTION EXCLUSION FROM ASSESSMENT

This claim must be filed with the Assessor prior to, or within 30 days of, completion of construction.

Office of the Assessor Kings County

DATE

1400 W. Lacey Blvd. Hanford, CA. 93230 559-852-2486 fax 559-582-2794

CLAIMANT'S NAME (PLEASE PRINT) ASSESSOR'S PARCEL NUMBER		IE AND MAILING ADDRESS / corrections to the printed name is	and mailing address)				
CLAMMAT'S MANE (PLEASE PRINT) ASSESSOR'S PARCEL NUMBER PATE (OR ANTICIPATED DATE) OF COMPLETION DAY INC. THE PROPERTY TWO MALLINGACORESS) YES NO The property owner, primary contractor, civil or structural engineer, or architect has certified to the building department those portions of the project that are seismic retrofitting components, as defined by Revenue and Taxation Code excludes from assessment that portion of an existing structure that consists of the construction and reconstruction of seismic components. In order to receive the exclusion, this claim form must be filed with the assessor prior to, or within 30 days of, completion of the project. All documents necessary to support the exclusion must be filed with the Assessor by the property owner not later than six months after completion of the project, that are seismic retrofitting components, as defined by Revenue and Taxation Code section 74.5(b)(2). Upon completion of the project, the building department shall report to the Assessor the costs of the portions of the project that are seismic retrofitting components. For purposes of section 74.5(b): 1) "Seismic retrofitting promponents" means seismic retrofitting improvements and improvements utilizing earthquake hazard mitigation technologies. 2) "Seismic retrofitting improvements" means seismic retrofitting or reconstruction of an existing building or structure, to abate falling hazards from structural or nonstructural components of any building or structure including, but not limited to, parapets, appendages, cornices, hanging objects, and building dading that pose serious danger. Seismic retrofitting improvements" also means either structural strengthening or providing the means necessary to resist seismic force levels that world otherwise be experienced by an existing building or structure during an earthquake, so as to significantly reduce hazards to life and safety while also providing for the substantially safe ingress and egress of building occupants during and immediately aft	Ė.	·	- ,	٦		FOR ASSESSOR'S USE ONLY

CERTIFICATION I certify (or declare) under penalty of perjury under the laws of the State of California that the foregoing	components.						Ū
technologies. (2) "Seismic retrofitting improvements" means retrofitting or reconstruction of an existing building or structure, to abate falling hazards from structural or nonstructural components of any building or structure including, but not limited to, parapets, appendages, cornices, hanging objects, and building cladding that pose serious danger. "Seismic retrofitting improvements" also means either structural strengthening or providing the means necessary to resist seismic force levels that would otherwise be experienced by an existing building or structure during an earthquake, so as to significantly reduce hazards to life and safety while also providing for the substantially safe ingress and egress of building occupants during and immediately after an earthquake. "Seismic retrofitting improvements" does not include alterations, such as new plumbing, electrical, or other added finishing materials, made in addition to seismic-related work performed on an existing structure. "Seismic retrofitting" includes, but is not limited to, those items referenced in Appendix A of the International Existing Building Code of the International Code Council. (3) "Improvements utilizing earthquake hazard mitigation technologies" means improvements to existing buildings identified by a local government as being hazardous to life in the event of an earthquake. These improvements shall involve strategies for earthquake protection of structures. These improvements shall use technologies such as those referenced in Part 2 (commencing with Section 1.1.1) of Title 24 of the California Building Code and similar seismic provisions in the International Building Code. THIS EXCLUSION EXPIRES UPON CHANGE IN OWNERSHIP OF THE PROPERTY.
