YES NO The property owner, primary contractor, civil or structural engineer, or architect has certified to the					
building department those portions of the project that are seismic retrofitting components, as defined by Revenue and Taxation Code section 74.5(b)(2).					
	revenue una raxation cou	0.000.011.74.0(6	//(Z).		
Section 74.5 of the Revenue and Taxation Code excludes from assessment that portion of an existing structure that consists of the construction and reconstruction of seismic components.					
In order to receive the exclusion, this claim form must be filed with the assessor prior to, or within 30 days of, completion of the project.					
All documents necessary to support the exclusion must be filed with the Assessor by the property owner not later than six months after					
completion of the project.					
The property owner, primary contractor, civil or structural engineer, or architect shall certify to the building department those portions of the project that are seismic retrofitting components, as defined by Revenue and Taxation Code section 74.5(b)(2). Upon completion					
of the project, the building department shall report to the Assessor the costs of the portions of the project that are seismic retrofitting					
components.					
For purposes of section 74.5					
	omponents" means seismic reti	rofitting improvem	ents and improven	nents utilizing earthquake hazard mitigation	
technologies. (2) "Seismic retrofitting improvements" means retrofitting or reconstruction of an existing building or structure, to abate falling hazards					
from structural or nonstructural components of any building or structure including, but not limited to, parapets, appendages, cornices,					
hanging objects, and building cladding that pose serious danger. "Seismic retrofitting improvements" also means either structural					
strengthening or providing the means necessary to resist seismic force levels that would otherwise be experienced by an existing building or structure during an earthquake, so as to significantly reduce hazards to life and safety while also providing for the substantially					
safe ingress and egress of building occupants during and immediately after an earthquake. "Seismic retrofitting improvements" does					
not include alterations, such as new plumbing, electrical, or other added finishing materials, made in addition to seismic-related work					
performed on an existing structure. "Seismic retrofitting" includes, but is not limited to, those items referenced in Appendix Chapters					
5 and 6 of the Uniform Code for Building Conservation of the International Conference of Building Officials. (3) "Improvements utilizing earthquake hazard mitigation technologies" means improvements to existing buildings identified by a local					
	government as being hazardous to life in the event of an earthquake. These improvements shall involve strategies for earthquake				
protection of structures. These improvements shall use technologies such as those referenced in Part 2 (commencing with Section 101) of Title 24 of the California Building Code and similar seismic provisions in the Uniform Building Code.
