☐ YES ☐ NO The property owner, primary contractor, civil or structural engineer, or architect has certified to the					
				mic retro <mark>fitting compone</mark> nts, as defined	
	by Revenue and Tax	ation Code section 74.	5(b)(2).		
0	D. 1.T. (C.)				
			ssment that portion of	of an ex <mark>isting structure th</mark> at consists of the	
construction and reconstruction of seismic components.					
In order to receive the exclusion, this claim form must be filed with the assessor prior to, or within 30 days of, completion of the project. All documents necessary to support the exclusion must be filed with the Assessor by the property owner not later than six months after					
completion of the project.					
The property owner, primary contractor, civil or structural engineer, or architect shall certify to the building department those portions					
of the project that are seismic retrofitting components, as defined by Revenue and Taxation Code section 74.5(b)(2). Upon completion					
of the project, the building department shall report to the Assessor the costs of the portions of the project that are seismic retrofitting					
components.			W		
For purposes of sect	ion 74.5				
(1) "Seismic retrofitting components" means seismic retrofitting improvements and improvements utilizing earthquake hazard mitigation					
technologies.					
(2) "Seismic retrofitting improvements" means retrofitting or reconstruction of an existing building or structure, to abate falling hazards					
from structural or nonstructural components of any building or structure including, but not limited to, parapets, appendages, cornices,					
hanging objects, and building cladding that pose serious danger. "Seismic retrofitting improvements" also means either structural strengthening or providing the means necessary to resist seismic force levels that would otherwise be experienced by an existing					
	building or structure during an earthquake, so as to significantly reduce hazards to life and safety while also providing for the substantially				
safe ingress and egress of building occupants during and immediately after an earthquake. "Seismic retrofitting improvements" does					
				als, made in addition to seismic-related work	
				ose items referenced in Appendix Chapters	
		Conservation of the Intern			
				nts to existing buildings identified by a local	
				ents shall involve strategies for earthquake	
		Code and similar seismic		renced in Part 2 (commencing with Section orm Building Code.	
THIS EXCLUSION EXPIRES UPON CHANGE IN OWNERSHIP OF THE PROPERTY.
